Work History

GIMM Unity and Full Stack Developer - Boise State GIMM Department (2026 - Present)

- Lead technical design for a language-preservation project with the Duck Valley Native American Reservation to preserve Western Shoshoni and Northern Paiute.
- Build a web interface for app updates, server middleware for player management and media storage, and a Unity app hosting multiplayer games and Duolingo-style lessons.

GIMM Peer Mediator and Media Team - Boise State GIMM Department (2024 - 2025)

- Mentored first and second year GIMM students on Unity, Unreal Engine, Adobe Suite, and web development (HTML, CSS, JavaScript, Node.js) through one-on-one support and workshops.
- Collaborated with the Media Team to produce promotional and instructional content for department events and courses.

Resident Assistant - Boise State Housing (2024 - current)

- Manage a residential community of up to 64 students, serving as first point of contact for crises, conflicts, and policy concerns.
- Plan and host 4 events per semester and mediate roommate conflicts, collaborating with professional staff to support student well-being.

Other Work History

Hokkaido Ramen Bar, Idaho Falls Parks and Recreation, Heise Hotsprings Pizza Parlor.

Education

Boise State University (2023 - current [Expected 2027])

Working on a Bachelors of Science in Games Interactive Media and Mobile. During my time I have Specialized in Multiplayer Game development, and games backend understanding.
